

**AMENDMENTS TO THE CLAIMS**

1. (canceled)

2. (canceled)

Kindly amend claim 3 as follows:

3. (currently amended) A method for the enhancement of the immune system to attack cancerous tumors and inhibit capillary growth to tumors in a mammal comprising the administration of an effective amount of urushiol in a pharmaceutically acceptable carrier together with the co-administration of a secondary immunostimulator selected from the group consisting of tumor-associated proteins and antigens.

4. (canceled)

5. (currently amended) A method for the enhancement of cytotoxic anti-cancer agents and anti-angiogenesis agents for the treatment of cancerous tumors in a mammal comprising the administration of an effective amount of urushiol together with an anti-cancer agent comprising anthracyclines.

6. (canceled)

7. (previously withdrawn)

8. (previously withdrawn)

9. (new) A method for the treatment of cancer through the enhancement of the immune system to attack cancer cells and the inhibition of capillary growth to tumors through the simultaneous use of anti-cancer agents to kill said cells comprising the administration of an effective amount of urushiol in a pharmaceutically acceptable carrier together with the co-administration of a secondary immunostimulator comprising tumor-associated proteins and antigens together with an anti-cancer agent selected from the group consisting of anthracyclines.
